

Background

This document sets out the fees that tire producers and tire producer responsibility organizations (PROs) must pay to the Resource Productivity and Recovery Authority for 2019 under the [Resource Recovery and Circular Economy Act, 2016 \(RRCEA\)](#).

The 2019 Registry Fees for Tires have been set following consultation requirements outlined in the RRCEA and in accordance with the Authority's [General Fee Setting Policy's](#) objectives, principles and rules, and the [Fee Setting Methodology](#) on the following basis:

- Fees for producers are unchanged from 2018
- Service providers will continue to not pay fees
- Fees for producer responsibility organizations have been slightly modified to consolidate the \$5000 registration fee in 2018 with the Registry License Fee in order to reduce administrative burdens for both the Authority and PROs, with little to no impact on total fees

2019 Registry Fees for Tires

Registrant	Fee
Producer- 0-999 tires supplied	\$75 flat fee
Producer- 1000+ tires supplied	\$0.14/tire supplied*
Service providers (collectors, haulers, retreaders, processors)	No fee
Producer responsibility organizations	\$7500 flat fee (\$5000 registration fee + Registry license fees)

*The number of tires supplied is based on a rolling average of three years of data required to be submitted by producers under the Tires Regulation.

Fee payment timeline

When producers and PROs register on the Registry, fees will be automatically calculated. Tire producer and PRO fees are due at the time of registration.

Other charges and fees

The Authority will levy a number of other charges such as:

- Credit card charges to recover the costs charged by the credit card company at a rate of 1.5%
- A monthly 1.5% late payment fee as a percentage of the fee value

- Ministry of the Environment, Conservation and Parks costs associated with Environmental Review Tribunal hearings resulting from the appeal of compliance orders and administrative penalty orders from affected parties
- Prosecution costs directly from affected parties

Review timeline

The Authority seeks to find the right balance between the frequency of fee adjustments to ensure the Authority's financial sustainability while providing reasonable predictability for regulated parties. Fees will be reviewed again in 2020 to ensure they reflect the information available at that time.
