Introduction

What is Hazardous and Special Products performance reporting?

HSP performance is an annual report that PROs with obligations under the [Hazardous and Special Products \(HSP\) Regulation](#) complete to report on their own collection and management activities from October 1, 2021 to December 31, 2022. PROs can also report on behalf of their producer clients on their collection and management activities during the same time period. **The deadline to submit performance reports is September 15 2023.**

This guide will assist PROs with understanding what data they need to report and provide step-by-step instructions on how to complete the report in RPRA's Registry.

Further information about the HSP Regulation can be found on RPRA's [website](#).

If you have further questions that are not answered in this guide, contact the Compliance Team at registry@rpra.ca or call 1-833-600-0530.

What data PROs need to submit for their own reports

PROs are required to report on their own aggregate activities from October 1, 2021 to December 31, 2022, undertaken on behalf of their producer clients of **oil filters, oil containers and antifreeze**. In this report, you will also need to provide information about your producer clients that do not have management requirements.

PROs are required to report on the following:

- A separate report for each type of HSP.
- The weight of recovered resources accounted for to meet the producer's management requirements.
- A description of the activities undertaken by the producer to comply with the promotion and education requirements.
- The weight of materials processed from that type of HSP that were:
 - Land disposed,
 - Incinerated,
 - Used as a fuel or a fuel supplement, or
 - Stored, stockpiled, used as daily landfill cover or otherwise deposited on land.

What data PROs need to submit for their own reports cont.

Note:

RPRA's Registrar is delaying the performance audit requirement due to the ongoing development of the Hazardous and Special Products Resource Recovery Performance Audit Procedure.

Only performance data is required to be submitted by the September 15 deadline. The performance audit will be required later in 2023 once the procedure is finalized.

When submitting the performance audit, PROs are only required to submit one aggregate report.

What data PROs need to submit for producer reports

For your producer clients **with** management requirements (oil filters), you are required to submit separate reports with information about performance activities completed from October 1, 2021 to December 31, 2022, for each type of HSP material you managed on their behalf.

For your producer clients **without** management requirements, there is no requirement to file individual performance reports. Instead, this information must be included in your aggregate PRO performance report.

PROs are required to report on the following on behalf of their producer clients:

- A list of all collection services provided, including collection sites, collection events, call-in collection services and curbside pickup.
- A description of the activities undertaken by the producer to comply with the promotion and education requirements.
- The name and contact information of each processor.
- The weight of the material(s) supplied to consumers in Ontario.

What data PROs need to submit for producer reports cont.

PROs are required to submit an individual report **on behalf of each producer client of oil filters** on the producer's activities from October 1, 2021 to December 31, 2022.

PROs are required to report on the following on behalf of their producer clients:

- The weight of recovered resources accounted for to meet the producer's management requirements.
- The weight of materials processed from that type of HSP that were:
 - land disposed,
 - incinerated,
 - used as a fuel or a fuel supplement, or
 - stored, stockpiled, used as daily landfill cover or otherwise deposited on land.

How to log into the Registry as an account admin

The report is completed online through RPRA's Registry.

You can access your Registry account here: registry.rpra.ca

Tips for logging into the Registry for the first time:

- If you don't have an account, click "Don't have an Account? Create a new Account".
- The Registry **will not work** with the Internet Explorer web browser. Google Chrome is the recommended web browser to use.

Tips for logging into an existing Registry account:

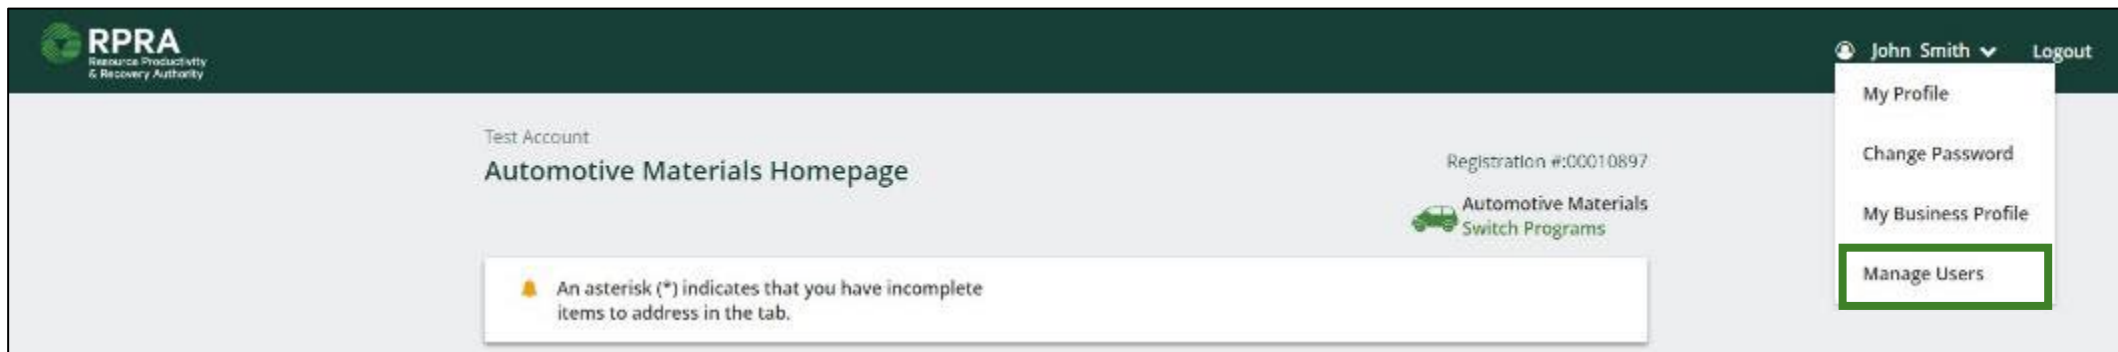

- If you already have an existing Registry account, you do not need to create a new one.
 - Simply log into your existing account, which will bring you to the homepage where you will see all programs you are enrolled in.
 - If you have forgotten your password, click "Forgot Password" on the login screen and follow the instructions provided.
- Watch [this how-to video](#) if you would like to watch step-by-step instructions.

How to manage contacts in your Registry account

Account admins must add any new or manage existing primary contacts under the program they wish to give them access to (e.g., permissions to view and complete reports). Read this [FAQ](#) for more information on user levels in the Registry.

To manage contacts in your Registry account, see the following steps or watch our [how-to video](#):

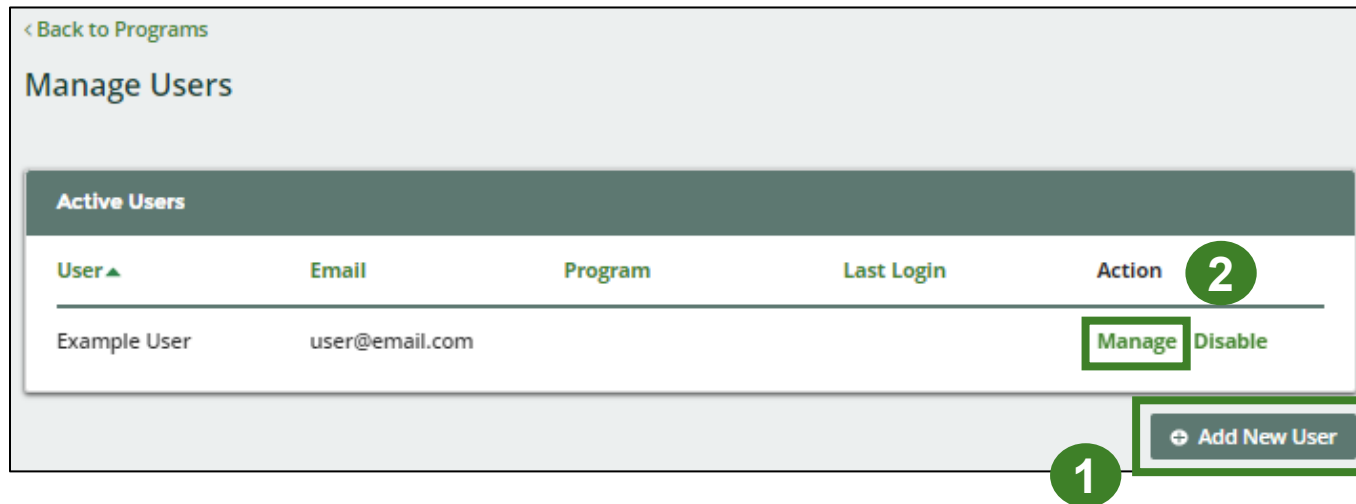

1. Once you are logged into your account, click on the drop-down arrow in the top right corner and select **Manage Users** as shown below.

The screenshot displays the RPRRA (Resource Productivity & Recovery Authority) Automotive Materials Homepage. The top navigation bar is dark green with the RPRRA logo on the left and the user name 'John Smith' with a dropdown arrow and a 'Logout' link on the right. The main content area is light gray and includes the text 'Test Account', 'Automotive Materials Homepage', and 'Registration #:00010897'. A green icon for 'Automotive Materials Switch Programs' is also visible. A notification box at the bottom left states: 'An asterisk (*) indicates that you have incomplete items to address in the tab.' The user menu dropdown is open, showing options: 'My Profile', 'Change Password', 'My Business Profile', and 'Manage Users'. The 'Manage Users' option is highlighted with a green border. A green circle with the number '1' is positioned to the right of the dropdown menu.

How to manage contacts on your Registry account cont.

1. Click **Add New User** to add an additional user to your account.
2. Under Action, click **Manage** to update preferences of existing users.

I did not collect any automotive materials.

Clear Form

The screenshot shows a web form titled 'Weight of Materials Collected'. At the top, there is a tab labeled 'Collected'. Below the tab, the text reads 'Total weight of automotive materials collected.' followed by a section titled 'Total Weight Collected'. This section contains three rows of input fields: 'Antifreeze and Oil Containers', 'Antifreeze Liquid', and 'Oil Filters', each with a text box containing the number '0'. To the right of these fields is a separate box titled 'Total Kilograms' which also contains three text boxes, each with '0'. At the bottom left, there is a checkbox labeled 'I did not collect any automotive materials.' which is currently unchecked. At the bottom right, there are two buttons: 'Clear Form' and 'Save & Next'. Three green circular callouts with numbers 1, 2, and 3 are overlaid on the form. Callout 1 points to the 'Total Kilograms' box, callout 2 points to the 'I did not collect any automotive materials.' checkbox, and callout 3 points to the 'Save & Next' button.

Performance report

Review your materials collected data

Once you have begun entering in data for your report, your report status will change to **In Progress**. You will not be able to click **Submit Report** until all fields in the report have been completed.

1. Review the kilograms of automotive materials collected (entered previously).
2. Click on **Edit**, if you need to make a change to the automotive material weights.

Performance report

Enter your processed material disposal data (antifreeze liquid) cont.

1. In each category (**Land Disposed**, **Incinerated**, **Used as Fuel**, **Stockpiled**), enter the total weight of processed materials for each of the material(s) under **Total Kilograms**.
 - If applicable, list any materials included in the **Other** category.

The image displays four sequential screenshots of a web form titled "2021/22 Automotive Materials Performance - PRO" for "TheoMcgrath SERVICES". Each screenshot shows a different disposal category selected in a tabbed interface, with green boxes and numbers highlighting key elements.

- Screenshot 1 (Land Disposed):** The "Land Disposed" tab is active. A table lists materials: Clean Water, Distilled Glycol, Filtered and Reconditioned Antifreeze, Waste Water, and Other. Each has a "Total Kilograms" input field. A green box labeled "1" highlights the "Total Kilograms" column. A green box labeled "2" highlights the "Other" category input field. A green box labeled "3" highlights the "Save & Next" button.
- Screenshot 2 (Incinerated):** The "Incinerated" tab is active. A table lists materials: Clean Water, Distilled Glycol, Filtered and Reconditioned Antifreeze, Waste Water, and Other. Each has a "Total Kilograms" input field. A green box labeled "1" highlights the "Total Kilograms" column. A green box labeled "2" highlights the "Other" category input field. A green box labeled "3" highlights the "Save & Next" button.
- Screenshot 3 (Used as Fuel):** The "Used as Fuel" tab is active. A table lists materials: Clean Water, Distilled Glycol, Filtered and Reconditioned Antifreeze, Waste Water, and Other. Each has a "Total Kilograms" input field. A green box labeled "1" highlights the "Total Kilograms" column. A green box labeled "2" highlights the "Other" category input field. A green box labeled "3" highlights the "Save & Next" button.
- Screenshot 4 (Stockpiled):** The "Stockpiled" tab is active. A table lists materials: Clean Water, Distilled Glycol, Filtered and Reconditioned Antifreeze, Waste Water, and Other. Each has a "Total Kilograms" input field. A green box labeled "1" highlights the "Total Kilograms" column. A green box labeled "2" highlights the "Other" category input field. A green box labeled "3" highlights the "Save & Next" button.

2. For each tab, if you did not send any material for land disposal, incineration, used as fuel or stockpiled, leave the kilograms field blank and click the check box for **I did not send any material**.

3. Click **Save & Next**.

View submitted report

1. On the **Automotive Materials Homepage** under the **PRO Reporting** tab, your Automotive Materials Performance – PRO report status should show **Submitted**, and who it was last updated by.
2. Under **Action**, you can **View** the report submission.

The screenshot shows the 'Automotive Materials Homepage' for user 'HSPPROTesting' with registration number '00025445'. The 'PRO Reporting' tab is active. A table lists report submissions, with one entry highlighted by a green box and labeled '1'. This entry is for the '2021/22 Automotive Materials Performance' report, which is 'Submitted' on 'May 12, 2023 03:16 p.m.' by 'Red HidingHood'. A 'View' button is highlighted by another green box and labeled '2'.

How to submit performance reports on behalf of producers

The next few slides will guide you with entering your **collected** material(s) data.

Performance report

Accessing your program

1. After logging in, click on the icon for the **Automotive Materials** program on your dashboard.

Performance report on behalf of producers

Starting a producer report

1. Click on the **Producers** tab to see the producers who have identified you as their PRO in the Registry.
2. Click **Producer Reports** tab.
3. Under the **Producer Reports** tab, select the year for which you would like to submit a report for.
4. Click **Start** next to the producer you would like to begin reporting on behalf of.

Note: You must complete a report for every producer client of oil filters.

The screenshot shows the 'Automotive Materials Homepage' for 'HSPTestingPRO'. The registration number is 00025442. There is a link for 'Automotive Materials Switch Programs'. The navigation menu includes 'PRO Reporting', 'Producers', 'Producer Reports', and 'Invoices'. The 'Producers' tab is highlighted with a green box and a circled '1'. Below the navigation is a table with the following data:

Producer ▲	Registration #	Action
HaulerTesting	00025443	View
HSPTesting	00025441	View

The screenshot shows the 'Producer Reports' tab selected in the navigation menu, highlighted with a green box and a circled '2'. Below the navigation, it says 'Performance reports for your producers. Select a performance year:'. A dropdown menu is open, showing '2022' selected, highlighted with a green box and a circled '3'. Below this is a table with the following data:

Producer ▲	Status	Last Updated By	Action
HaulerTesting	Not Started Due Date: Jul 31, 2099		Start
HSPTesting	Submitted May 11, 2023 01:13 p.m.	HSPTesting PRO	View

Performance report

Report summary page

Before entering any information, your report status will be listed as **Not Started**, and the **Submit Report** button will be disabled until all sections of the report is complete. If some sections of the report are not applicable, enter **0**.

1. Under **Weight of Materials Collected**, click **Start** to begin entering the total weight of oil filters collected.

Make sure to provide all the required data before submitting.

Performance report

Enter your producer's collected data

1. Under **Collected**, enter the total kilograms of oil filters collected under **Total Kilograms**. The total weight of containers and antifreeze liquid must be reported on your self-report. Report zero for these two materials on the producer report.
2. If you did not collect any automotive materials, leave the kilograms field blank and check box for **I did not collect any automotive material**.
3. Click **Save & Next**.

Clear Form

Save & Next

The form is titled 'Weight of Materials Collected' and has a 'Collected' tab selected. It asks for the 'Total weight of automotive materials collected' and lists three categories: 'Antifreeze and Oil Containers', 'Antifreeze Liquid', and 'Oil Filters'. Each category has a corresponding input field in a 'Total Kilograms' column, all containing the number '0'. There is a checkbox labeled 'I did not collect any automotive materials.' At the bottom right, there are two buttons: 'Clear Form' and 'Save & Next'.

Performance report

Review your producer's collected data

Once you have begun entering in data for your report, your report status will change to **In Progress**. You will not be able to click **Submit Report** until all fields in the report have been completed.

1. Review the kilograms of automotive materials collected (entered previously).
2. Click on **Edit**, if you need to make a change to the weights.
