Introduction

What is Hazardous and Special Products performance reporting?

HSP performance is an annual report that PROs with obligations under the [Hazardous and Special Products \(HSP\) Regulation](#) complete to report on their own collection and management activities from October 1, 2021 to December 31, 2022. **The deadline to submit your performance report is September 15.**

This guide will assist PROs with understanding what data they need to report and provide step-by-step instructions on how to complete the report in RPRA's Registry.

Further information about the HSP Regulation can be found on RPRA's [website](#).

If you have further questions that are not answered in this guide, contact the Compliance Team at registry@rpra.ca or call 1-833-600-0530.

What data needs to be reported?

PROs are required to report on their own aggregate activities from October 1, 2021 to December 31, 2022 undertaken on behalf of their producer clients of **pesticides**.

PROs are required to report on the following:

- A separate report for each type of HSP.
- The weight of recovered resources accounted for to meet the producer's management requirements.
- A description of the activities undertaken by the producer to comply with the promotion and education requirements.
- The weight of materials processed from that type of HSP that were:
 - Land disposed,
 - Incinerated,
 - Used as a fuel or a fuel supplement, or
 - Stored, stockpiled, used as daily landfill cover or otherwise deposited on land.
- The name and contact information of each processor or disposal facility.

What data needs to be reported? cont.

Note: RPRA's Registrar is delaying the performance audit requirement due to the ongoing development of the Hazardous and Special Products Resource Recovery Performance Audit Procedure.

Only performance data is required to be submitted by the September 15 deadline. The performance audit will be required later in 2023 once the procedure is finalized.

When submitting the performance audit, PROs are only required to submit one aggregate report.

How to log into the Registry as an account admin

The report is completed online through RPRA's Registry.

You can access your Registry account here: registry.rpra.ca.

Tips for logging into the Registry for the first time:

- If you don't have an account, click "Don't have an Account? Create a new Account".
- The Registry **will not work** with the Internet Explorer web browser. Google Chrome is the recommended web browser to use.

Tips for logging into an existing Registry account:

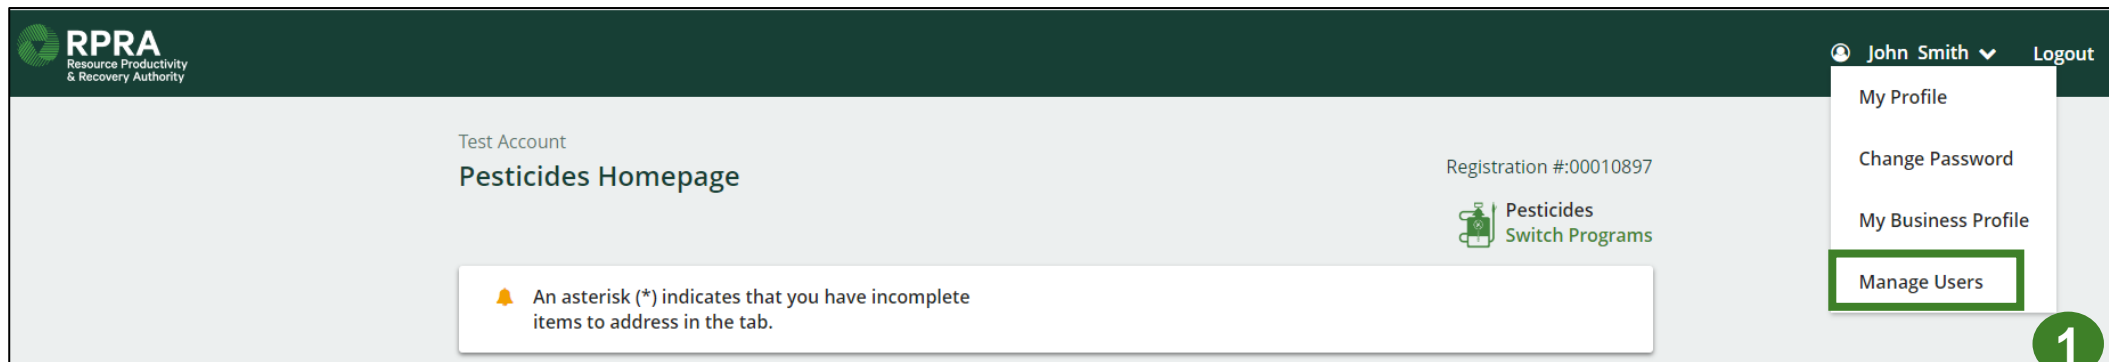

- If you already have an existing Registry account, you do not need to create a new one.
 - Simply log into your existing account, which will bring you to the homepage where you will see all programs you are enrolled in.
 - If you have forgotten your password, click "Forgot Password" on the login screen and follow the instructions provided.

How to manage contacts in your Registry account

Account admins must add any new or manage existing primary contacts under the program they wish to give them access to (e.g., permissions to view and complete reports). Read this [FAQ](#) for more information on user levels in the Registry.

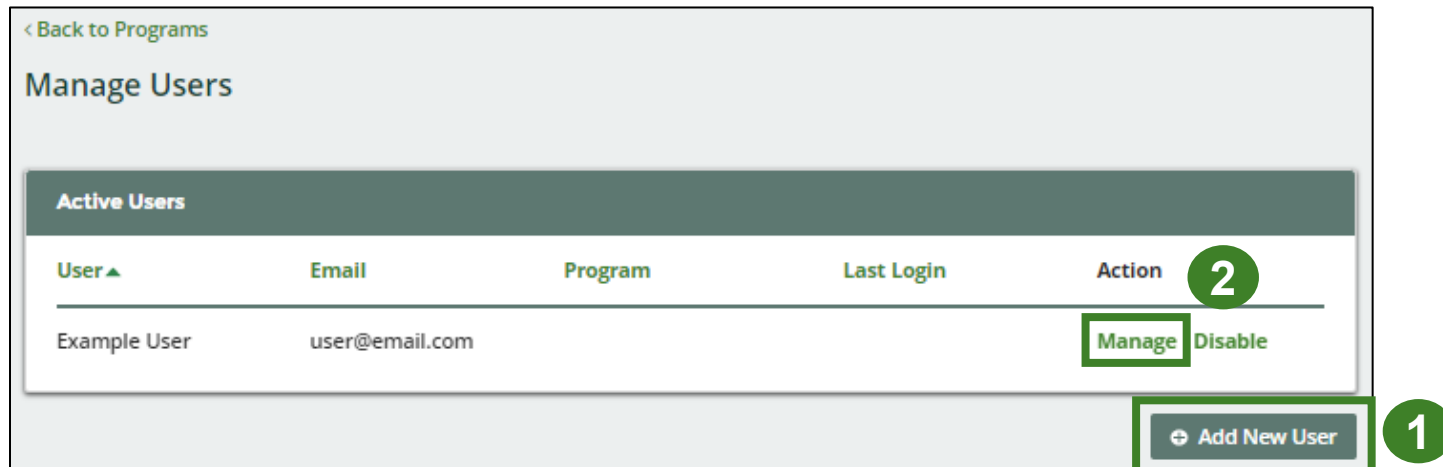

To manage contacts in your Registry account, see the following steps or watch our [how-to video](#):

1. Once you are logged into your account, click on the drop-down arrow in the top right corner and select **Manage Users** as shown below.

How to manage contacts on your Registry account cont.

1. Click **Add New User** to add an additional user to your account.
2. Under Action, click **Manage** to update preferences of existing users.
