- How to log into the Registry
- How to manage contacts on your Registry account

#### How to submit your processor performance report

Step-by step instructions on how to complete the report

#### **Additional Resources**

More resources to help further answer your questions

## What is Hazardous and Special Products performance reporting?

HSP performance reporting is an annual report that processors with obligations under the <u>Hazardous</u> and <u>Special Products (HSP) Regulation</u> complete to report on their processing activities from the previous calendar year. **The deadline to submit performance reports is July 31**.

This guide will assist processors with understanding what data they need to report and provide stepby-step instructions on how to complete the report in the Registry.

Further information about the HSP Regulation can be found on RPRA's website.

If you have further questions that are not answered in this guide, contact the Compliance Team at <a href="mailto:registry@rpra.ca">registry@rpra.ca</a> or call **1-833-600-0530**.

# What data needs to be reported?

If you are a processors of **paints**, **coatings and solvents**, you are required to report the following information from the previous calendar year:

- Actual weight of HSP material received from each hauler
- Actual weight of HSP material received from a person other than a hauler
- Actual weight of recovered resources (e.g., paper, plastic, metal, etc.)
- Actual weight of materials processed from that type of HSP that were:
  - · Land disposed,
  - Incinerated,
  - Used as a fuel or a fuel supplement, or
  - Stored, stockpiled, used as daily landfill cover or otherwise deposited on land.

# What data needs to be reported? cont.

Processors of **paints**, **coatings and solvents** are required to report the following information from the previous calendar:

- Actual weight of material that was sent by the processor to another person for the purpose of making recovered resources and the types of products made by that other person.
- Actual weight of any materials received from outside of Ontario.
- Name, contact information and RPRA registration number of the PRO(s), if the processor belongs to a PRO(s) management system.

#### Note:

RPRA is delaying the requirement for HSP processors to submit a Recycling Efficiency Rate (RER) verification report for paints, coatings and solvents. HSP processors will be required to submit an RER verification report, in accordance with the finalized procedure. RPRA will communicate directly with processors about their RER verification report requirements later this year. <u>Learn more</u>.

# How to log into the Registry as an account admin

The performance report is completed online through RPRA's Registry.

You can access your Registry account here: registry.rpra.ca

#### Tips for logging into the Registry for the first time:

- If you don't have an account, click "Don't have an Account? Create a new Account".
- The Registry **will not work** with the Internet Explorer web browser. Google Chrome is the recommended web browser to use.

#### Tips for logging into an existing Registry account:

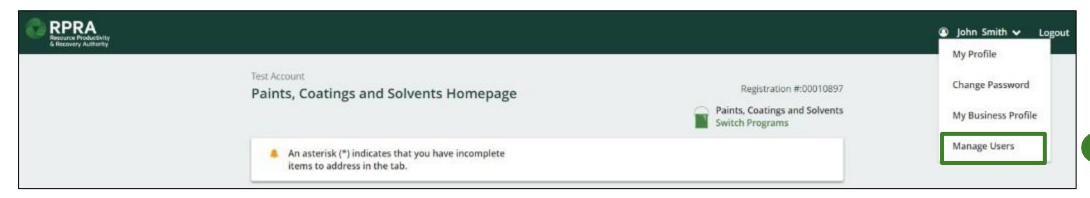

- If you already have an existing Registry account, you do not need to create a new one.
  - Simply log into your existing account, which will bring you to the homepage where you will see all programs you are enrolled in.
  - If you have forgotten your password, click "Forgot Password" on the login screen and follow the instructions provided.
  - Watch <u>this how-to video</u> if you would like to watch step-by-step instructions.

# How to manage contacts in your Registry account

Account admins must add any new or manage existing contacts under the program they wish to give them access to (e.g., permissions to view and complete reports). Read this <u>FAQ</u> for more information on user levels in the Registry.

To manage contacts in your Registry account, see the following steps or watch our <u>how-to</u> video:

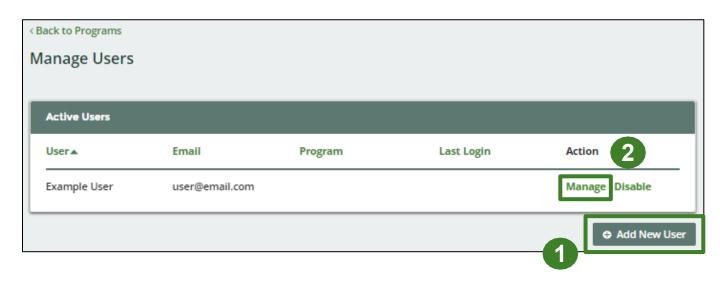

1. Once you are logged into your account, click on the drop-down arrow in the top right corner and select **Manage Users** as shown below.

1

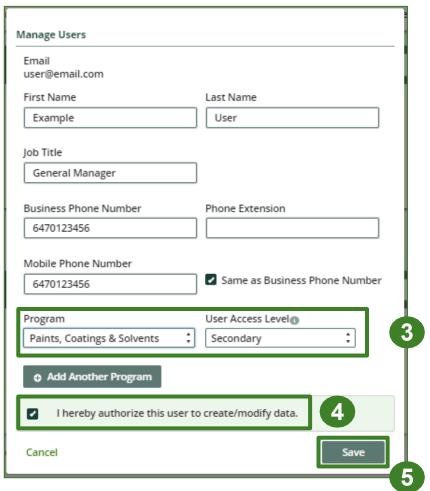

# How to manage contacts on your Registry account cont.

- 1. Click Add New User to add an additional user to your account.
- 2. Under Action, click Manage to update preferences of existing users.

- 3. To give reporting abilities to a **Primary** or **Secondary** contact, select the program from the drop-down that you would like to grant the user access to.
- 4. Check the box to authorize the user.
- 5. Click Save.

Note: a **Primary** contact will be able to add Secondary contacts to a specific program.

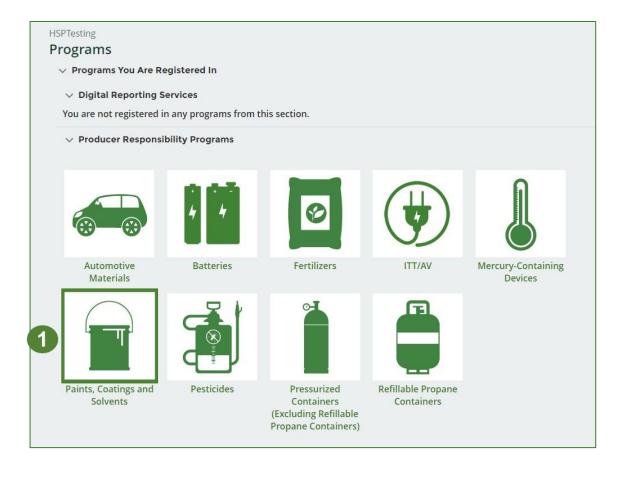

# Performance report Access your program

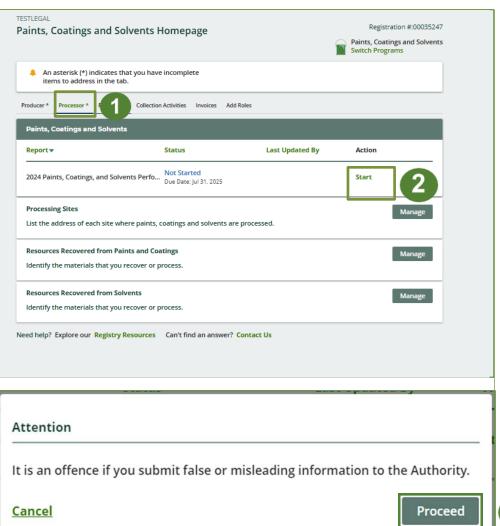

1. After logging in, click on the icon for the Paints, Coatings and Solvents program on your dashboard.

# Performance report Starting your report

- 1. On the **Paints, Coatings and Solvents Homepage**, click on the **Processor** tab to navigate to the processor reports.
- 2. Under **Action**, click on **Start** to begin completing the Paints, Coatings and Solvents Performance Processor report.
- 3. After clicking **Start**, a notice will appear. After reading the notice, click **Proceed**.

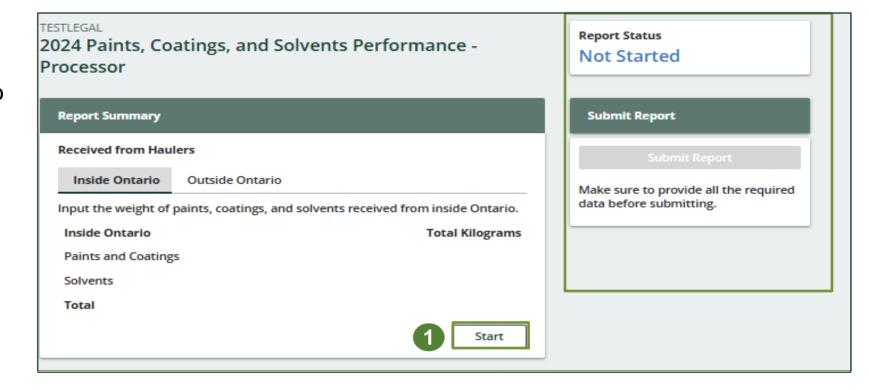

**Note:** Only the roles you are enrolled in will be clickable (e.g., if you are only a processor, you cannot click into the other role tabs).

#### Begin material received from hauler section

Before entering any information, your report status will be listed as **Not Started**, and the **Submit Report** button will be disabled until all sections of the report are completed. If some sections of the report are not applicable, enter **0**.

 Under Received from Haulers in the Inside Ontario tab, click Start to report the total weight of material received from each hauler.

#### Add haulers you received materials from

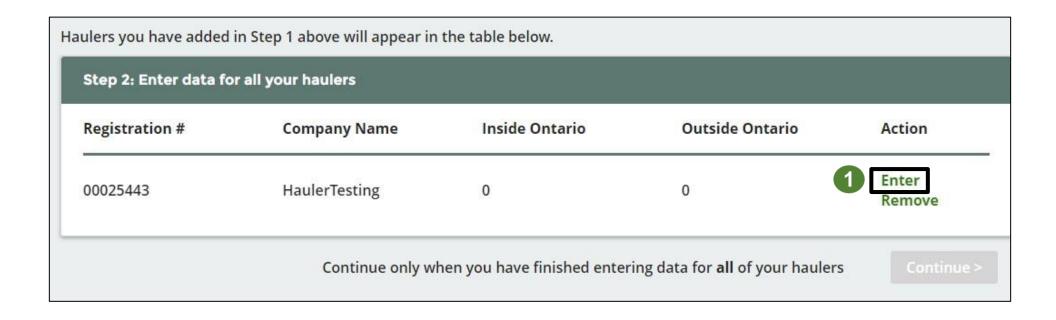

Add each hauler that you received paints, coatings and solvents from to your report.

- 1. Use the **search bar** to look up the name of the hauler(s).
- 2. Once the hauler name appears in the list, click **Add**.
- 3. Hauler(s) added will appear in the **Step 2: Enter data for all your haulers** section.

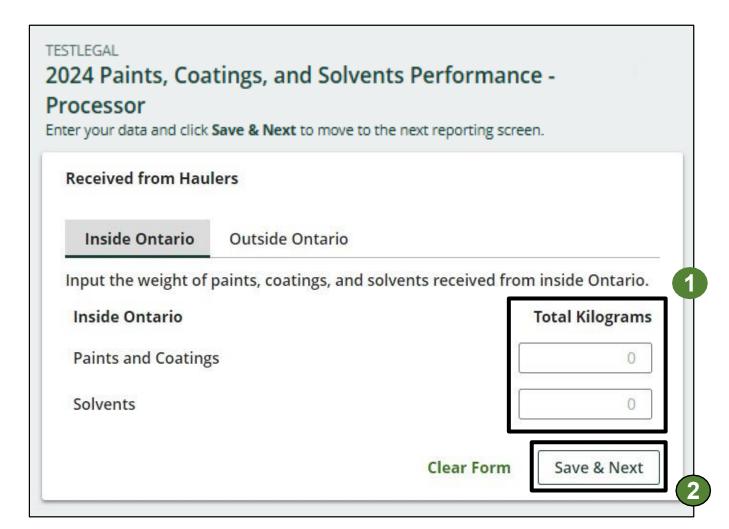

#### Enter in actual weight of materials received from each hauler

1. Under **Action**, click **Enter** to add the total weight of paints, coatings and solvents received from each hauler.

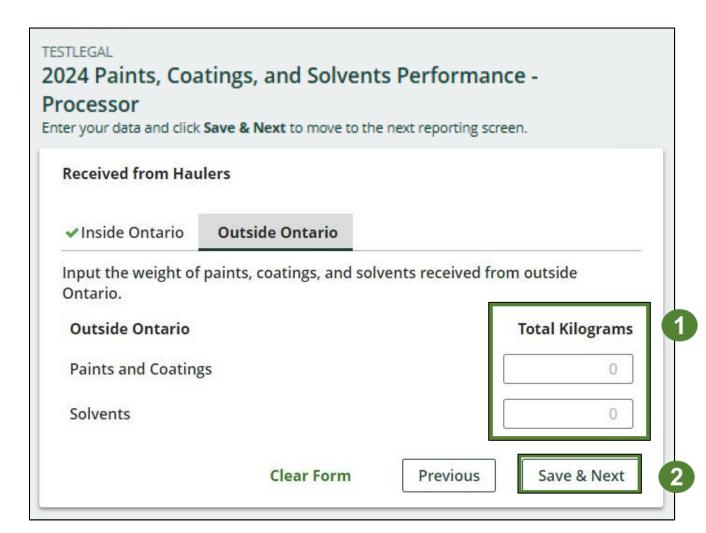

Enter in actual weight of materials received from each hauler cont.

- 1. Under the **Inside Ontario** tab, enter the **Total Kilograms** of paints, coatings and solvents collected from inside Ontario received from that hauler.
- 2. Click Save & Next.

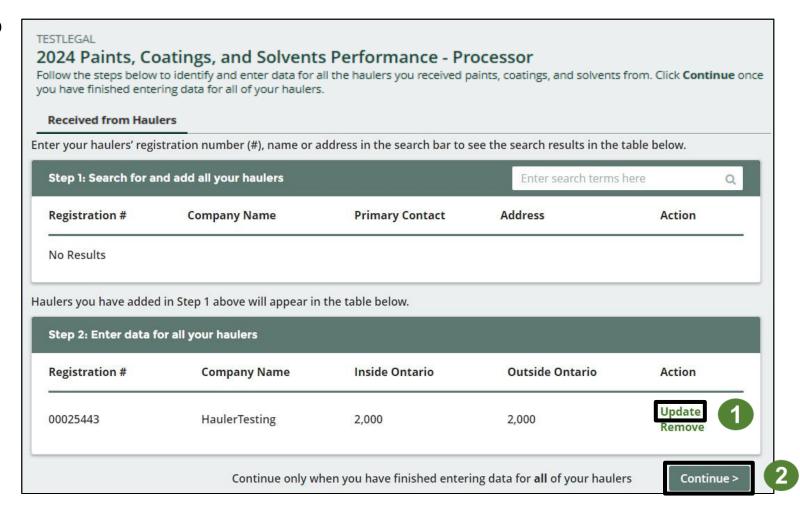

Enter in actual weight of materials received from each hauler cont.

- 1. Under the **Outside Ontario** tab, enter the **Total Kilograms** of paints, coatings and solvents collected from outside Ontario received from that hauler.
- 2. Click Save & Next.

#### Enter in actual weight of materials received from each hauler cont.

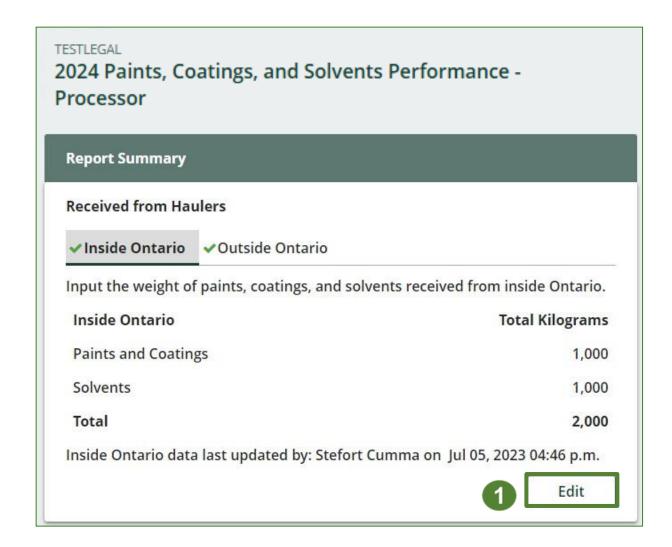

- 1. Click on **Update**, if you need to make a change to data entered for a specific hauler.
- 2. Click on **Continue** to proceed.

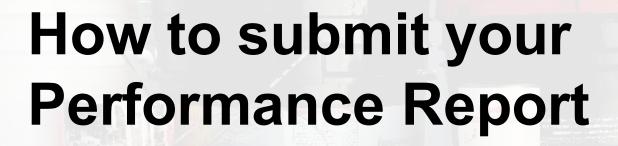

# Performance report Report summary from haulers

On the report summary you will see the total sum of kilograms dropped off by all haulers.

1. Click on **Edit** if you need to make a change to the paints, coatings and solvents weight.

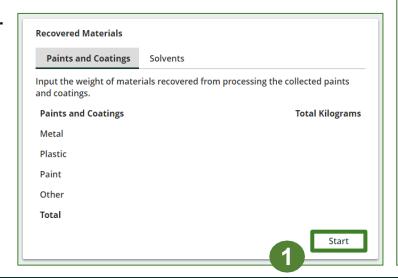

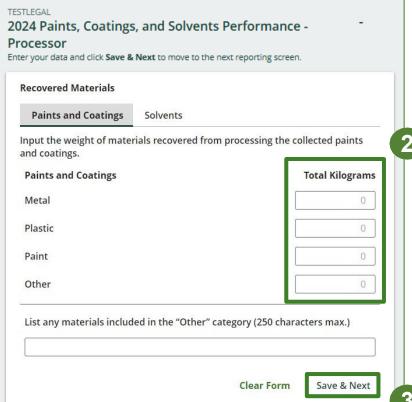

The next few slides will guide you with entering your recovered material(s) after processing data.

#### Entering actual weight of recovered materials

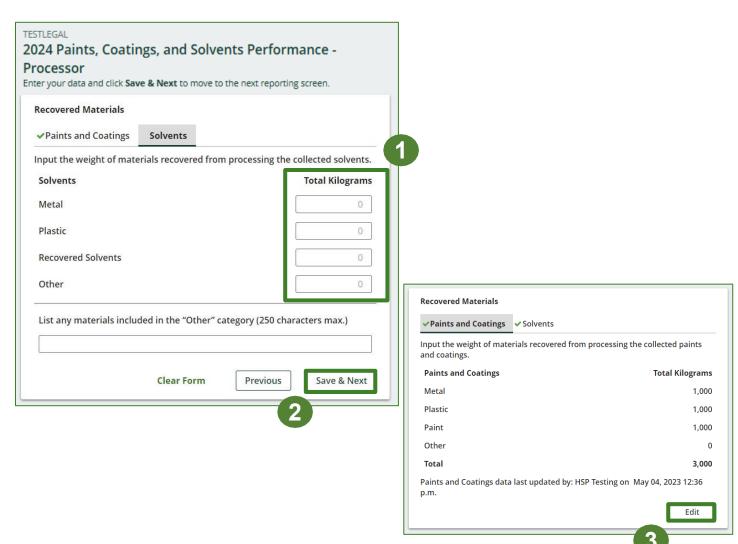

- 1. Click **Start** to begin entering the total weight of recovered materials.
- Under the Paints and Coatings tab, enter the total weight of materials recovered for each of the recovered material(s) under Total Kilograms.
  - If applicable list any materials included in the Other category.
- 3. Click **Save & Next** to proceed.

#### Entering actual weight of recovered materials

- Under the Solvents tab, enter the total weight of materials recovered for each of the recovered material(s) under Total Kilograms.
  - If applicable list any materials included in the **Other** category.
- 2. Click Save & Next to proceed.
- 3. Click on **Edit** if you need to make a change to the data previously entered.

The next few slides will guide you with entering your

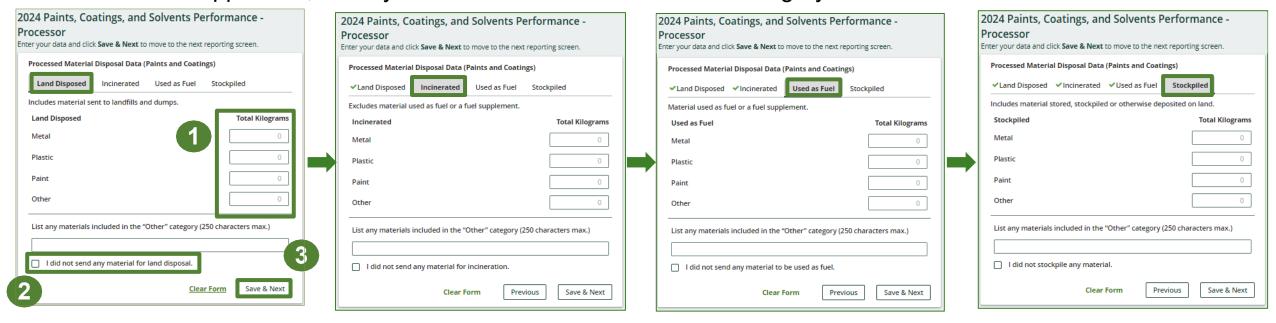

#### Entering total weight of processed material disposal data (paints and coatings)

1. Click **Start** to enter the weight of the material(s) disposed of, which includes materials sent to landfills and dumps.

Entering total weight of processed material disposal data (paints and coatings) cont.

- 1. In each category (Land Disposed, Incinerated, Used as Fuel, Stockpiled), enter the total weight of processed materials for each of the material(s) under Total Kilograms.
  - If applicable, list any materials included in the Other category.

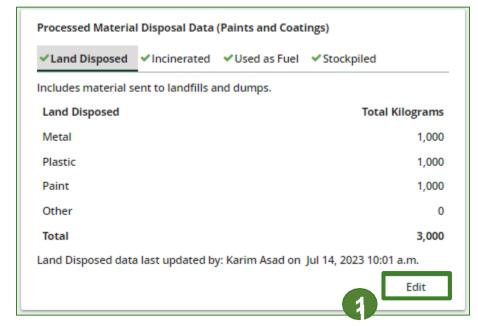

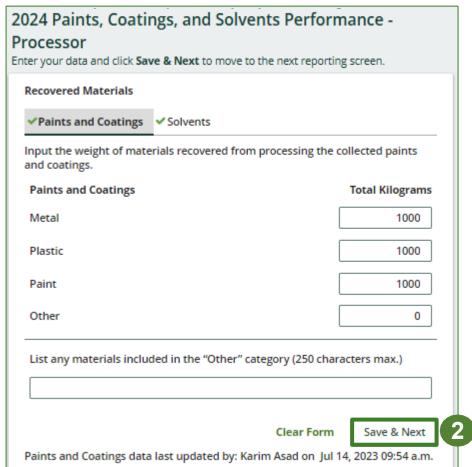

- 2. For each tab, if you did not send any material for land disposal, incineration, used as fuel or stockpiled, leave the kilograms field blank and click the check box for **I did not send any material**.
- Click Save & Next.

Entering total weight of processed material disposal data (paints and coatings) cont.

1. Click on **Edit** if you need to change the previously entered data.

2. Click **Save & Next** to proceed.

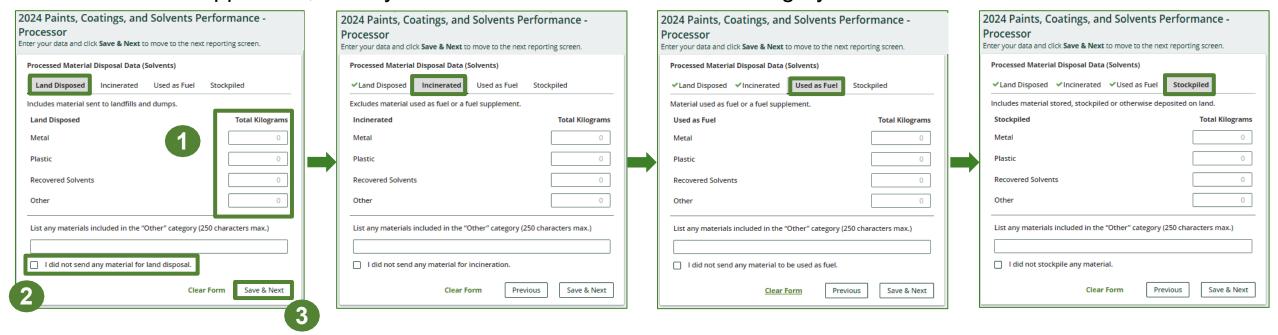

#### Entering total weight of processed material disposal data (solvents)

 Click Start to enter the weight of the material(s) disposed of, which includes materials sent to landfills and dumps.

Entering total weight of processed material disposal data (solvents) cont.

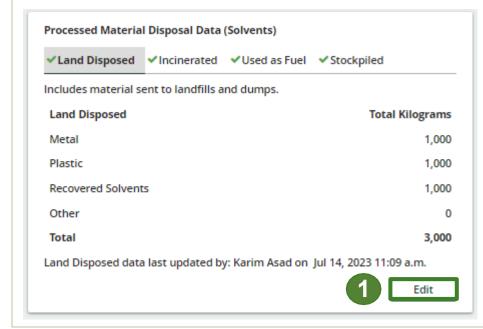

- 1. In each category (Land Disposed, Incinerated, Used as Fuel, Stockpiled), enter the total weight of processed materials for each of the material(s) under Total Kilograms.
  - If applicable, list any materials included in the Other category.

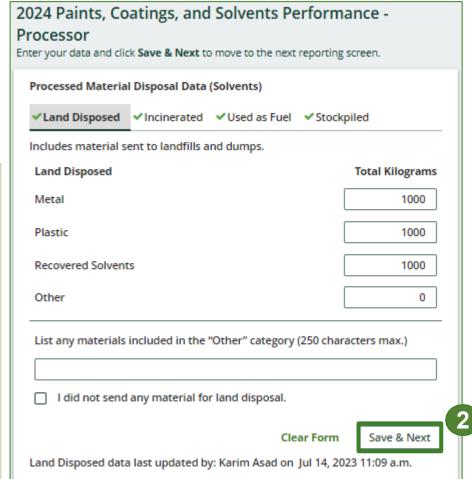

- 2. For each tab, if you did not send any material for land disposal, incineration, used as fuel or stockpiled, leave the kilograms field blank and click the check box for **I did not send any material**.
- 3. Click Save & Next.

#### Entering total weight of processed material disposal data (solvents)cont.

- 1. Click on **Edit** if you need to change the previously entered data.
- 2. Click **Save & Next** to proceed.

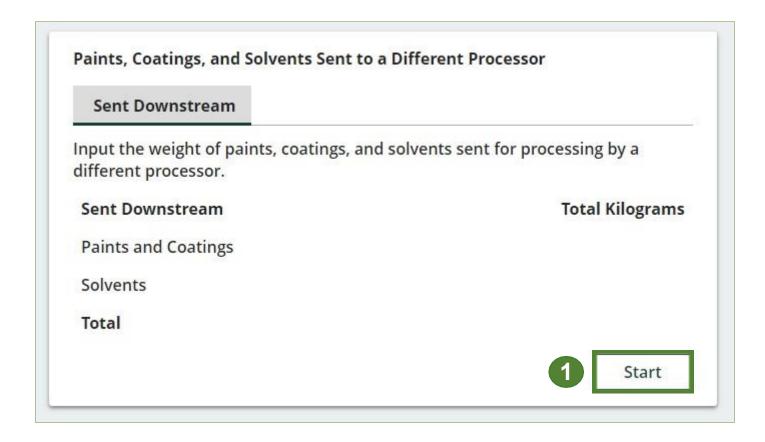

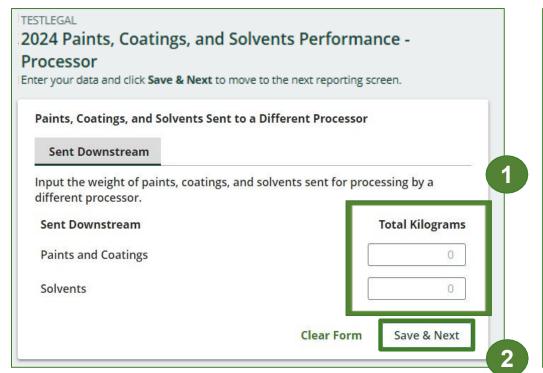

#### Entering the weight of materials sent to a different processor

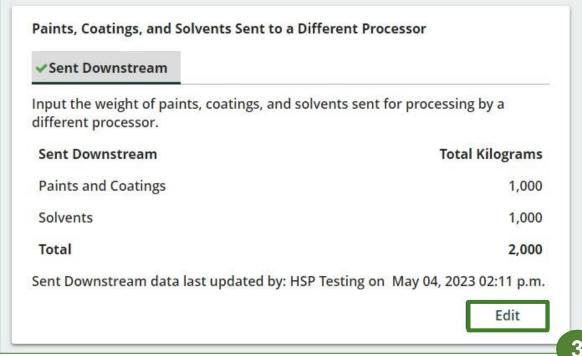

1. Click **Start** to begin entering the total weight of materials sent to a different processor.

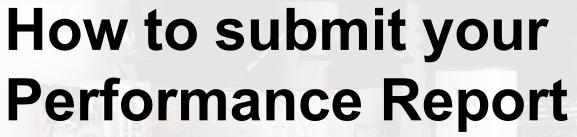

#### Entering total weight of materials sent to a different processor cont.

- 1. Under **Total Kilograms**, enter weight of paints, coating and solvents sent for processing by a different processor.
- 2. Click Save & Next.
- Click on Edit if you need to make a change to disposed material weights.

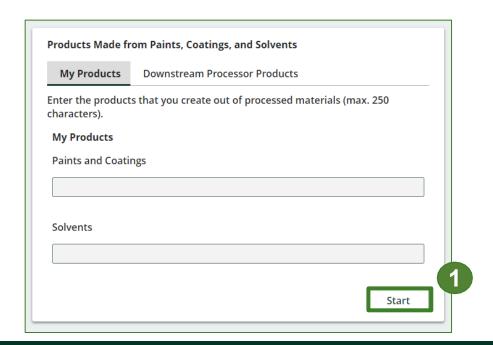

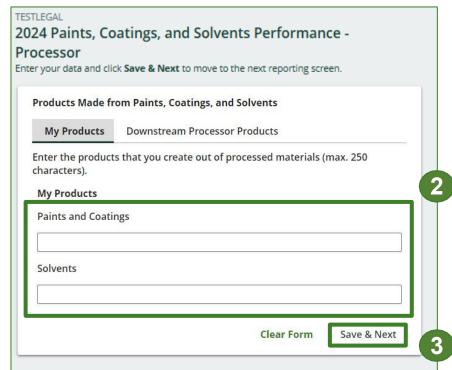

#### Products made from paints, coatings and solvents

- Click Start to enter data for products created out of processed paints, coatings and solvents.
- 2. Under **My Products**, list the products created by you out of processed materials for paints and coatings and solvents (e.g., new paints or solvents, plastic pellets.)
  - Write "Not Applicable or "None" on the materials that do not apply to you.
- 3. Click Save & Next.

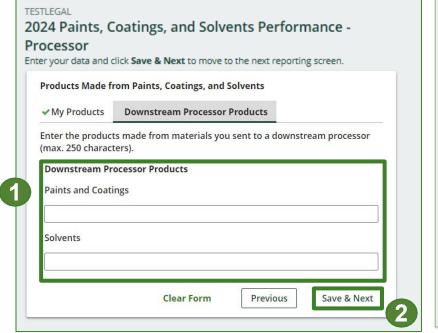

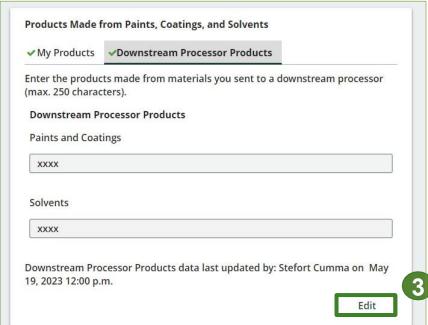

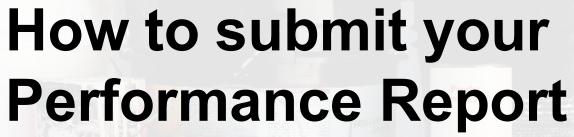

Products made from paints, coatings and solvents cont.

- 1. Under **Downstream Processor Products**, enter the products made from paints, coatings and solvents you sent to a downstream processor.
  - Write "Not Applicable" or "None" on the materials that are not applicable to you.
- 2. Click Save & Next.

3. Click on **Edit** if you need to make a change to products entered.

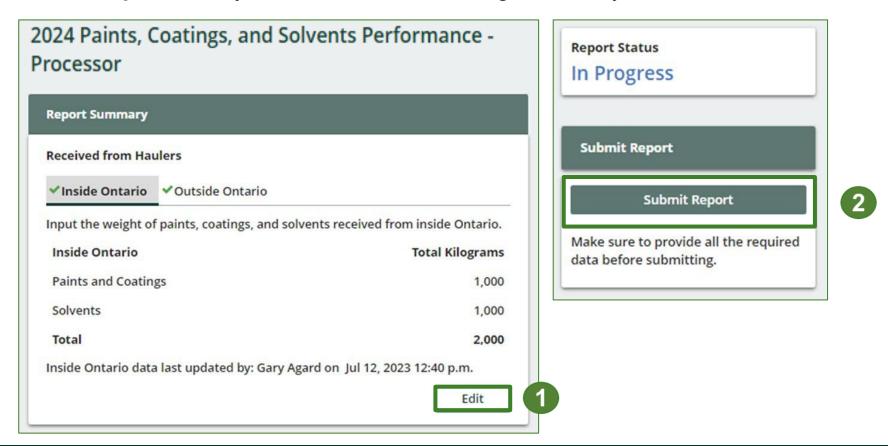

#### **Submit your report**

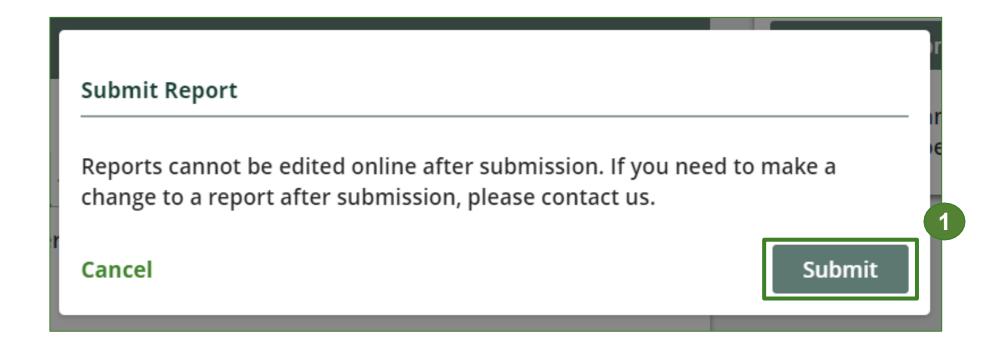

- 1. Under **Report Summary**, you can review the data previously entered and click **Edit** if you need to make changes.
- 2. Click on **Submit Report** once you are finished reviewing and ready to submit.

Submit your report cont.

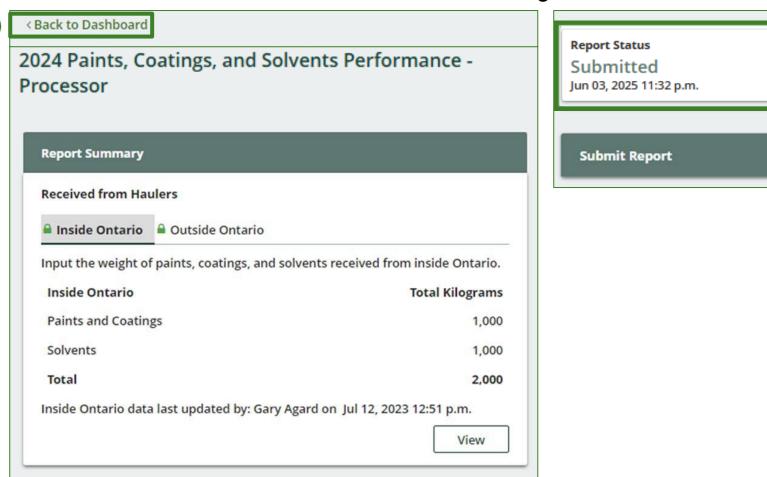

1. After clicking on **Submit Report**, the below notice will appear. After reading the notice, click **Submit**.

**Note:** Once the report is submitted you are not able to make any changes.

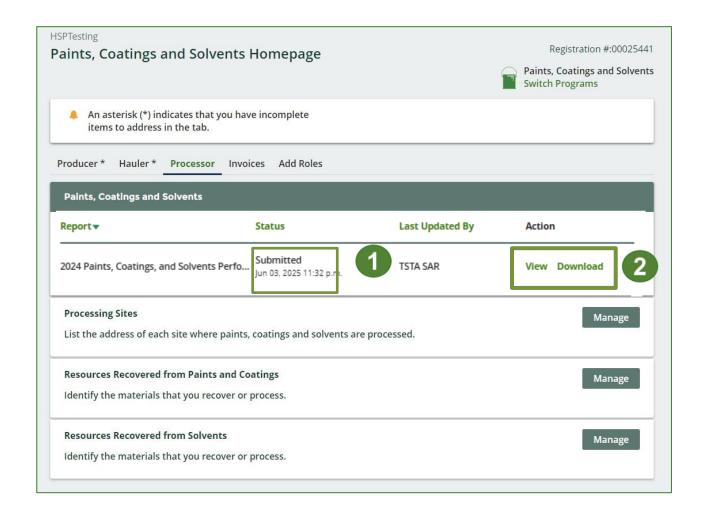

# Performance report Submit your report cont.

- 1. Your report status should now read as **Submitted**.
- 2. Click on **Back to Dashboard** to return to the Paints, Coatings and Solvents Homepage.

#### View submitted report

- On the Paints, Coatings and Solvents
   Homepage under the Processor tab,
   your Paints, Coatings and Solvents
   Performance Processor report status
   should show Submitted and who it was
   last updated by.
- 2. Under **Action**, you can click **View** to review the report submission or click **Download** for a copy of report.

# Have a question?

#### Resources to help you submit your report(s):

- Visit our <u>HSP service provider webpage</u> for additional information on reporting requirements.
- For support with navigating the Registry and meeting your regulatory requirements, visit our <u>HSP</u>
   <u>Registry Resources webpage</u> to access registry procedures, compliance bulletins, how-to videos,
   FAQs and more.
- If you have further questions that are not answered in this guide, contact the Compliance Team at <a href="mailto:registry@rpra.ca">registry@rpra.ca</a> or call 1-833-600-0530.
