Introduction

What is Hazardous and Special Products performance reporting?

HSP performance is an annual report that processors with obligations under the [Hazardous and Special Products \(HSP\) Regulation](#) complete to report on their processing activities from October 1, 2021 to December 31, 2022. **The deadline to submit performance reports is September 15.**

This guide will assist processors with understanding what data they need to report and provide step-by-step instructions on how to complete the report in RPRA's Registry.

Further information about the HSP Regulation can be found on RPRA's [website](#).

If you have further questions that are not answered in this guide, please contact the Compliance Team at registry@rpra.ca or call 1-833-600-0530.

What data needs to be reported?

Processors of **paints, coatings and solvents** are required to report the following information from October 1, 2021 to December 31, 2022:

- The weight of material received from an HSP hauler and their name, contact information and RPRA registration number.
- The weight of material received from a person other than an HSP hauler and their name and contact information and RPRA registration number.
- The weight of recovered resources.
- A list of the types of resources recovered.
- The weight of materials processed from that type of HSP that were:
 - Land disposed,
 - Incinerated,
 - Used as a fuel or a fuel supplement, or
 - Stored, stockpiled, used as daily landfill cover or otherwise deposited on land.

What data needs to be reported? cont.

Processors of **paints, coatings and solvents** are required to report the following information from October 1, 2021 to December 31, 2022:

- The weight of material that was sent by the processor to another person for the purpose of making recovered resources and the types of products made by that other person.
- The weight of any materials received from outside of Ontario.
- The name, contact information and RPRA registration number of the PRO(s), if the processor belongs to a PRO(s) management system.

Note:

RPRA has decided that processors already included on the HSP processor lists are not required to submit a Recycling Efficiency Rate (RER) Verification Report in 2023. [View the list of HSP processors here.](#) Processors listed on RPRA's website are to enter the RER submitted in 2022 when filling out the RER section of the 2023 report. Follow the instructions on [slide 36](#) for more guidance.

Processors who are not currently on the list, including new market entrants, will still be required to submit an RER Verification Report in 2023.

How to log into the Registry as an account admin

The report is completed online through RPRA's Registry.

You can access your Registry account here: registry.rpra.ca

Tips for logging into the Registry for the first time:

- If you don't have an account, click "Don't have an Account? Create a new Account".
- The Registry **will not work** with the Internet Explorer web browser. Google Chrome is the recommended web browser to use.

Tips for logging into an existing Registry account:

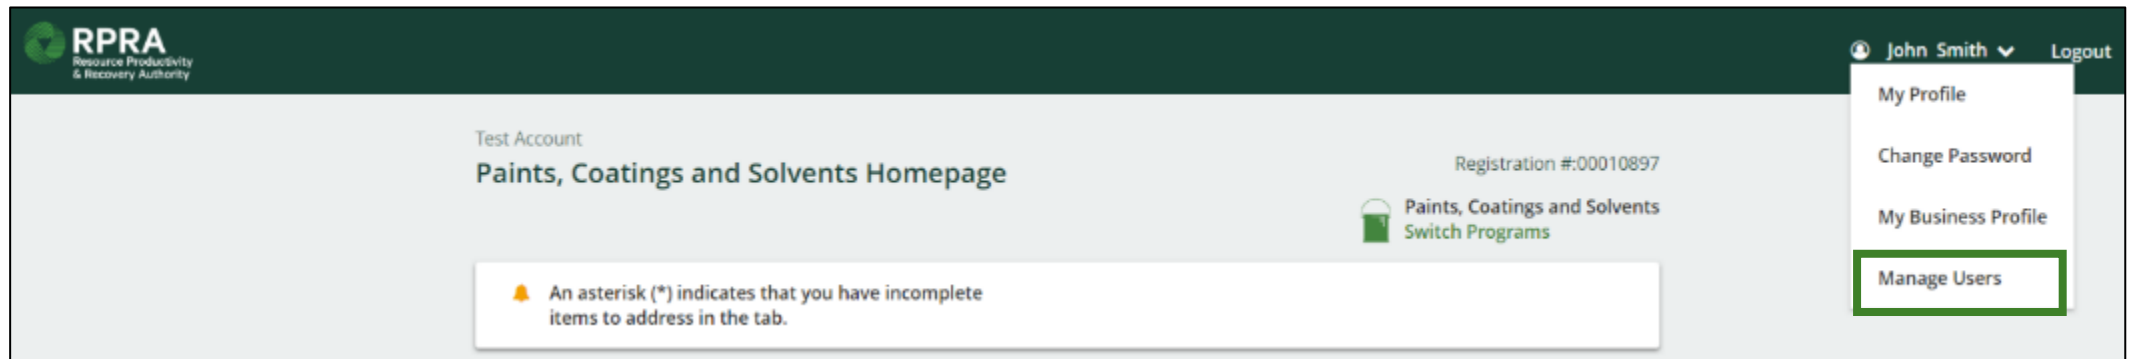

- If you already have an existing Registry account, you do not need to create a new one.
 - Simply log into your existing account, which will bring you to the homepage where you will see all programs you are enrolled in.
 - If you have forgotten your password, click "Forgot Password" on the login screen and follow the instructions provided.
- Watch [this how-to video](#) if you would like to watch step-by-step instructions.

How to manage contacts in your Registry account

Account admins must add any new or manage existing primary contacts under the program they wish to give them access to (e.g., permissions to view and complete reports). Read this [FAQ](#) for more information on user levels in the Registry.

To manage contacts in your Registry account, see the following steps or watch our [how-to video](#):

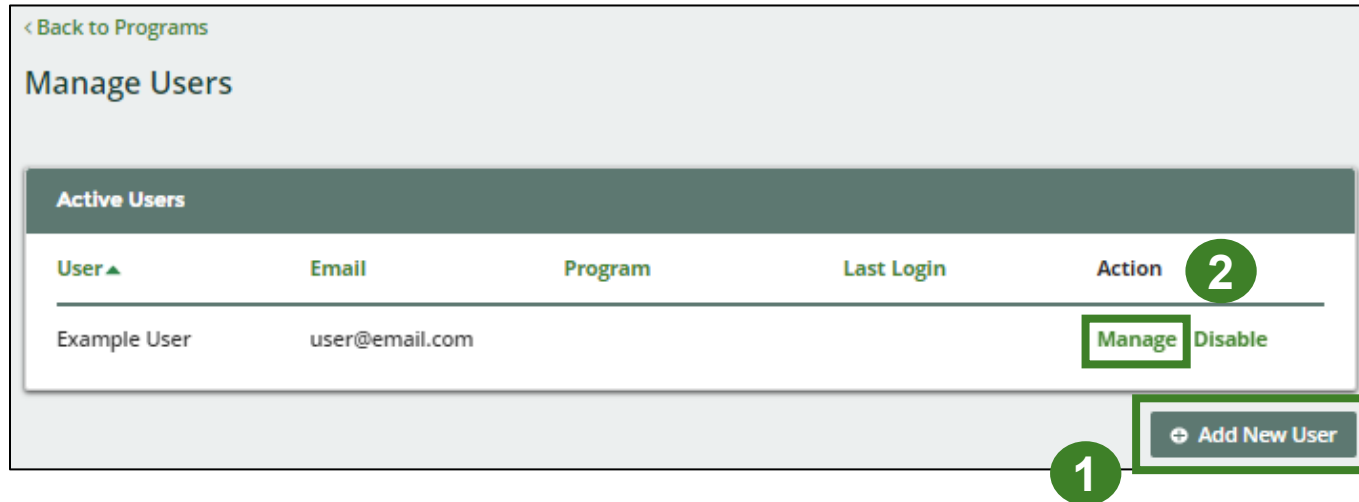

1. Once you are logged into your account, click on the drop-down arrow in the top right corner and select **Manage Users** as shown below.

The screenshot displays the RPRP (Resource Productivity & Recovery Authority) account dashboard. The top navigation bar is dark green with the RPRP logo on the left and the user name 'John Smith' with a dropdown arrow and a 'Logout' link on the right. Below the navigation bar, the main content area is light gray. On the left, it says 'Test Account' and 'Paints, Coatings and Solvents Homepage'. On the right, it shows 'Registration #:00010897' and a 'Switch Programs' button. A notification box at the bottom left states: 'An asterisk (*) indicates that you have incomplete items to address in the tab.' The user profile dropdown menu is open, showing options: 'My Profile', 'Change Password', 'My Business Profile', and 'Manage Users'. The 'Manage Users' option is highlighted with a green rectangular box. A green circle with the number '1' is positioned to the right of the 'Manage Users' option.

How to manage contacts on your Registry account cont.

1. Click **Add New User** to add an additional user to your account.
2. Under Action, click **Manage** to update preferences of existing users.

How to submit your processor performance report

The next few slides will guide you with entering your disposed of material(s) after processing data.

Performance report

Enter your processed material disposal data (paints and coatings)

1. Click **Start** to enter the weight of the material(s) disposed of, which includes materials sent to landfills and dumps.

Processed Material Disposal Data (Paints and Coatings)

Land Disposed Incinerated Used as Fuel Stockpiled

Includes material sent to landfills and dumps.

Land Disposed	Total Kilograms
Metal	
Plastic	
Paint	
Other	
Total	

1 **Start**

Performance report

Enter your processed material disposal data (paints and coatings) cont.

1. In each category (**Land Disposed**, **Incinerated**, **Used as Fuel**, **Stockpiled**), enter the total weight of processed materials for each of the material(s) under **Total Kilograms**.
 - If applicable, list any materials included in the **Other** category.

The image shows four sequential screenshots of the '2021/22 Paints, Coatings, and Solvents Performance - Processor' form, illustrating the steps to enter disposal data. Each screenshot has a green box highlighting the active category and a green circle with a number (1, 2, 3) indicating the step.

Screenshot 1 (Step 1): The 'Land Disposed' tab is selected. The form includes a table for 'Land Disposed' with columns for material type (Metal, Plastic, Paint, Other) and 'Total Kilograms'. A green box highlights the 'Total Kilograms' column, and a green circle with the number '1' is next to it. A green box with the number '2' is at the bottom left, and a green box with the number '3' is at the bottom right.

Screenshot 2 (Step 2): The 'Incinerated' tab is selected. The form includes a table for 'Incinerated' with columns for material type (Metal, Plastic, Paint, Other) and 'Total Kilograms'. A green box highlights the 'Incinerated' tab, and a green circle with the number '2' is at the bottom left.

Screenshot 3 (Step 3): The 'Used as Fuel' tab is selected. The form includes a table for 'Used as Fuel' with columns for material type (Metal, Plastic, Paint, Other) and 'Total Kilograms'. A green box highlights the 'Used as Fuel' tab, and a green circle with the number '3' is at the bottom left.

Screenshot 4 (Step 4): The 'Stockpiled' tab is selected. The form includes a table for 'Stockpiled' with columns for material type (Metal, Plastic, Paint, Other) and 'Total Kilograms'. A green box highlights the 'Stockpiled' tab, and a green circle with the number '4' is at the bottom left.

2. For each tab, if you did not send any material for land disposal, incineration, used as fuel or stockpiled, leave the kilograms field blank and click the check box for **I did not send any material**.
3. Click **Save & Next**.

Performance report

Enter your processed material disposal data (paints and coatings) cont.

The next few slides will guide you in entering your recycling efficiency rate (RER) to your report.

Performance report

Enter your recycling efficiency rate

Processors [listed on RPRA's website](#) are only required to enter the RER previously submitted in 2022. See [slide 6](#) for further explanation.

1. Click **Start** to enter your recycling efficiency rate (RER) from 2022.

Recycling Efficiency Rate	
RER	
Enter the applicable recycling efficiency rate (RER) for the following categories.	
Paints, Coatings, and Solvents	RER (%)
Paints and Coatings	0
Solvents	0

Start

Performance report

Enter your recycling efficiency rate cont.

1. Enter the **RER (%)** already submitted to RPRA for each material as applicable.
2. Click **Save & Next**.
3. Click **Edit** if you need to make changes to the data previously entered.

How to submit your processor performance report

The next few slides will guide you with **submitting** your report.

Performance report

Submit your report

1. Under **Report Summary**, you can review the data previously entered and click **Edit** if you need to make changes.
2. Click on **Submit Report** once you are finished reviewing and ready to submit.

2021/22 Paints, Coatings, and Solvents Performance - Processor

Report Summary

Received from Haulers

✓ Inside Ontario ✓ Outside Ontario

Input the weight of paints, coatings, and solvents received from inside Ontario.

Inside Ontario	Total Kilograms
Paints and Coatings	1,000
Solvents	1,000
Total	2,000

Inside Ontario data last updated by: Gary Agard on Jul 12, 2023 12:40 p.m.

Performance report

Submit your report cont.

1. After clicking on **Submit Report**, the below notice will appear. After reading the notice, click **Submit**.

Note: Once the report is submitted you are not able to make any changes.

Performance report

Submit your report cont.

1. Your report status should now read as **Submitted**.
2. Click on **Back to Dashboard** to return to the Paints, Coatings and Solvents Homepage.

The screenshot displays a web interface for a performance report. On the left, a panel titled '2021/22 Paints, Coatings, and Solvents Performance - Processor' contains a 'Report Summary' section. This section includes a 'Received from Haulers' subsection with two tabs: 'Inside Ontario' (selected) and 'Outside Ontario'. Below the tabs, a text prompt asks for the weight of paints, coatings, and solvents received from inside Ontario. A table follows, showing the following data:

Inside Ontario	Total Kilograms
Paints and Coatings	1,000
Solvents	1,000
Total	2,000

Below the table, it states 'Inside Ontario data last updated by: Gary Agard on Jul 12, 2023 12:51 p.m.' and includes a 'View' button. At the top of this panel is a '< Back to Dashboard' button. On the right, a separate box shows the 'Report Status' as 'Submitted' with the timestamp 'Jul 12, 2023 12:51 p.m.' and a 'Submit Report' button below it.

Performance report

View submitted report

1. On the **Paints, Coatings and Solvents Homepage** under the **Processor** tab, your Paints, Coatings and Solvents Performance – Processor report status should show **Submitted** and who it was last updated by.
2. Under **Action**, you can click **View** to review the report submission or click **Download** for a copy of report.
